## Our History

A team of fully dedicated professionals experienced within the sector of medical supply manufacturing for over 30 years. We are proud and dedicated to provide medical supplies all over the world, to the majority of governments and hospitals who require a fast and urgent turnover of supplies in times of crisis.

We prioritise our production to the requirement of each country based on urgent demand. We are partially open to privatised sales to buyers who can allocate products in the right markets under consideration of our board.

We stand on firm ground to ensure that all of our offered products come with the correct marking approved on the worldwide market according to health standards set by each governing body for that specific sector.

Product allocation with several factories, all government certified and approved with required licensing. We can offer FOB & CIF.

Experienced trade group with over 30 years of experience in the market, building a future for sustainable production and sales of medical supplies.

Ensuring clients that quality control is our priority with long term established relations in the healthcare supply industry.

## Our strengths

### Efficiency

Our 30 years of experience in supplying medical equipment have developed streamlined supply chains and refined our processes so that we can deliver a service we guarantee you would recommend.

### Quality

We only work with suppliers and products that have undergone the rigorous testing processes of the most renowned medical institutions across the world.

### Value

Our longstanding relationships within the medical manufacturing industry provide us with access to a range of reputable suppliers, enabling us to position our pricing as the fairest on the market.

Long term relationships with suppliers and buyers are key to us. Thorough inspections and approvals are done via many channels for further inspection of any existing or new manufacturers to ensure we are providing our clients with the best quality products.

## Disclaimer

Please note that due to the new rules and regulations introduced by China's government all masks prior to export will be independently verified and checked to assure that all are within quality for export and also for import countries.

No medical supplies are permitted to leave without special government inspection and approval. Same applies for freight /cargo shipments. Without having these specific verifications and approvals they will not be allowed to export any supplies. This is for the protection of buyers.

All prices are F.O.B China unless stated otherwise on product sheet. CIF to be quoted upon order placed confirmation.

Please note that as we are working with multiple manufacturers, there may be some variation of products. Upon receiving a purchase order, full description of product including photos and product sheets will be provided.

## Purchase Order Procedure Terms & Conditions

### Payment Terms

50% on order, 50% after inspection. Inspection carried out by SGS, TÜV or other accredited and recognised institution.

### Currency

Payment to be made either in USD, EUR or GBP

### Price

See above quoted in F.O.B. CIF price will be advised based on current freight costs.

### Quantities

To be confirmed based on order requirement and current production capacities.

# Purchase Order Procedure
